1. Right Click on the link in the web page, and select *Save Target As…* .This window will appear.

2. In the File name box, delete the .zip extension and write the .mssn extension in its place.

3. In the Save as type box, select All Files from the drop down menu.

4. Click Save. Now open MSS 11-16 and click File, then open file (Ctrl + O). Browse to the lesson file you have just saved and it should work.
